Profile

From the moment I produced “Hello World” in the console of my first application, I knew I was hooked into the world of software development.

A Full-Stack Web Developer from Chicago, IL. Eager to create web solutions that inspire, educate and empower people. Love bringing ideas to life and never afraid of taking on a new challenge. Always making sure to find new ways to grow and to learn.

Skills

HTML, CSS, CSS preprocessing with Less, Bootstrap, JavaScript, React.js, Reactstrap, building responsive websites, and working within a source control, Git.

Projects

Rick and Morty Ultimate Fan App

Built a responsive React Web App using Rick and Morty’s API. Rendered the data from the API into components and styled it with Reactstrap.

Stack: React/Reactstrap

NASA Photo Of The Day

Built a project that uses NASA Photo of the Day API to retrieve daily content about cool discoveries or worth sharing facts by NASA.

Stack: React/Reactstrap/Axios

Spacewalkers

A three hour Sprint Challenge to build a responsive website with advanced CSS techniques and CSS Preprocessor with LESS.

Stack: HTML/CSS/LESS

FUN BUS

Fun Bus, a Sprint Challenge responsive website built in HTML, CSS and CSS preprocessing with LESS. Used Git to commit and push files to GitHub.

Stack: HTML/CSS/LESS

SP Landscaping

Built a responsive and mobile friendly website for SP Landscaping. Worked closely with the client to provide a great final product.

Stack: HTML/CSS/Bootstrap
