Profile

From the moment I produced “Hello World” in the console of my first application, I knew I was hooked into the world of software development. I am a Full-Stack Web Developer from Chicago, IL. I am eager to create web solutions that inspire, educate and empower people. I love bringing ideas to life and I’m never afraid of taking on a new challenge. If I’m not moving, growing, or learning then I make sure to find a way to do so.

Skills

HTML, CSS, CSS preprocessing with Less, Bootstrap, JavaScript, React.js, Reactstrap, building responsive websites, and working within a source control, Git.

Experience

Rick and Morty Ultimate Fan App

Built a responsive React Web App using Rick and Morty’s API. Rendered the data from the API into components and styled it with Reactstrap.

Stack: React/Reactstrap

NASA Photo Of The Day

Built a project that uses NASA Photo of the Day API to retrieve daily content about cool discoveries or worth sharing facts by NASA.

Stack: React/Reactstrap/Axios

Spacewalkers

This Sprint Challenge tested me on my advanced CSS techniques using Responsive Design and Preprocessing. In this project, I had to compile my CSS file Less for it to work.

Stack: HTML/CSS/LESS

FUN BUS

Fun Bus was a Sprint Challenge to test my knowledge on HTML, CSS and CSS preprocessing. For this project I was asked to compile the CSS file to Less. I also got to work with Git.

Stack: HTML/CSS/LESS

SP Landscaping

Built a responsive and mobile friendly website for SP Landscaping. Worked closely with the client to provide a great final product.

Stack: HTML/CSS/Bootstrap

Education

Lambda School – Full-Stack Web Development and Computer Science
2019-Present

Wright College - Chicago, IL - Computer Science
2016
